# Shariah Committee's Report

In the name of Allah, the Beneficent, the Merciful

In compliance with the letter of appointment, we are required to submit the following report:

We have reviewed the principles and the contracts relating to the transactions and applications introduced by Deutsche Bank (Malaysia) Berhad's Islamic Banking division during the year ended 31 December 2015. We have also conducted our review to form an opinion as to whether Deutsche Bank (Malaysia) Berhad's Islamic Banking division has complied with the Shariah principles and with the Shariah rulings issued by the Shariah Advisory Council of Bank Negara Malaysia, as well as Shariah decisions made by us.

The management of Deutsche Bank (Malaysia) Berhad's Islamic Banking division is responsible for ensuring that the financial institution conducts its business in accordance with the Shariah principles. It is our responsibility to form an independent opinion, based on our review of the operations of Deutsche Bank (Malaysia) Berhad's Islamic Banking division, and to report to you.

We have assessed the Shariah review work carried out by Shariah Compliance officer and internal Shariah audit.

We planned and performed our review so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the Bank has not violated the Shariah principles.

In our opinion:

The contracts, transactions and dealings entered into by Deutsche Bank (Malaysia) Berhad's Islamic Banking division during the year ended 31 December 2015 that we have reviewed are in compliance with the Shariah principles.

Company No. 312552-W

We, the members of the Shariah Committee of Deutsche Bank (Malaysia) Berhad's Islamic Banking division, do hereby confirm that the operations of Deutsche Bank (Malaysia) Berhad's Islamic Banking division for the year ended 31 December 2015 have been conducted in conformity with the Shariah principles.

Dr. Sheikh Hussain Hamed Sayed Hassan

# Independent auditors' report to the member of Deutsche Bank (Malaysia) Berhad

(Company No. 312552-W) (Incorporated in Malaysia)

#### Report on the Financial Statements

We have audited the financial statements of Deutsche Bank (Malaysia) Berhad, which comprise the statements of financial position as at 31 December 2015 of the Group and of the Bank, and the statements of profit or loss and other comprehensive income, changes in equity and cash flows of the Group and of the Bank for the financial year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 12 to 89.

#### Directors' Responsibility for the Financial Statements

The Directors of the Bank are responsible for the preparation of these financial statements that give a true and fair view in accordance with the Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia. The Directors are also responsible for such internal control as the Directors determine are necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Bank's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Company No. 312552-W

#### Opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Group and of the Bank as of 31 December 2015 and of their financial performance and cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and requirements of the Companies Act, 1965 in Malaysia.

#### Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Companies Act, 1965 in Malaysia, we also report the following:

- a) In our opinion, the accounting and other records and the registers required by the Act to be kept by the Bank and its subsidiary companies have been properly kept in accordance with the provisions of the Act.
- b) We are satisfied that the accounts of the subsidiary companies that have been consolidated with the Bank's financial statements are in form and content appropriate and proper for the purposes of the preparation of the financial statements of the Group and we have received satisfactory information and explanations required by us for those purposes.
- c) The audit reports on the accounts of the subsidiary companies did not contain any qualification or any adverse comment made under Section 174(3) of the Act.

#### Other Matters

This report is made solely to the member of the Bank, as a body, in accordance with Section 174 of the Companies Act, 1965 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

## Notes to the financial statements

Deutsche Bank (Malaysia) Berhad ("the Bank") is a public limited liability company incorporated and domiciled in Malaysia. The address of both its registered office and principal place of business is located at Level 18, Menara IMC, 8, Jalan Sultan Ismail, 50250 Kuala Lumpur. The consolidated financial statements of the Bank as at and for the year ended 31 December 2015 comprise the Bank and its subsidiaries (together referred to as the "Group").

The Group is principally engaged in all aspect of banking and related financial services that also include Islamic Banking business, whilst the principal activities of the subsidiaries are stated at Note 9 to the financial statements. There have been no significant changes to these principal activities during the financial year.

The immediate and ultimate holding company of the Bank is Deutsche Bank Aktiengesellschaft, a bank incorporated in Germany.

The financial statements were approved and authorised for issue by the Board of Directors on 29 June 2016.

# 1. Basis of preparation

# (a) Statement of compliance

The financial statements of the Group and of the Bank have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRSs"), International Financial Reporting Standards and the requirements of Companies Act, 1965 in Malaysia.

Pursuant to paragraph 13 of the Guidelines on Classification and Impairment Provision for Loans/Financing, Bank Negara Malaysia ("BNM") via its letter dated 4 February 2014 requires all banking institutions to maintain in aggregate, collective impairment provision and regulatory reserve of no less than 1.2% over the total outstanding loan/financing, net of individual impairment provision, before 31 December 2015. The Bank has complied with the minimum requirement of the BNM's directive as at 31 December 2015.

MFRSs, Interpretations and amendments effective for annual periods beginning on or after 1 January 2016

- MFRS 14, Regulatory Deferral Accounts
- Amendments to MFRS 5, Non-current Assets Held for Sale and Discontinued Operations (Annual Improvements 2012-2014 Cycle)

# (a) Statement of compliance (continued)

MFRSs, Interpretations and amendments effective for annual periods beginning on or after 1 January 2016 (continued)

- Amendments to MFRS 7, Financial Instruments: Disclosures (Annual Improvements 2012-2014 Cycle)
- Amendments to MFRS 10, Consolidated Financial Statements, MFRS 12, Disclosure of Interests in Other Entities and MFRS 128, Investments in Associates and Joint Ventures Investment Entities: Applying the Consolidation Exception
- Amendments to MFRS 11, Joint Arrangements Accounting for Acquisitions of Interests in Joint Operations
- Amendments to MFRS 101, Presentation of Financial Statements -Disclosure Initiative
- Amendments to MFRS 116, Property, Plant and Equipment and MFRS 138, Intangible Assets - Clarification of Acceptable Methods of Depreciation and Amortisation
- Amendments to MFRS 116, Property, Plant and Equipment and MFRS 141, Agriculture - Agriculture: Bearer Plants
- Amendments to MFRS 119, Employee Benefits (Annual Improvements 2012-2014 Cycle)
- Amendments to MFRS 127, Separate Financial Statements Equity Method in Separate Financial Statements
- Amendments to MFRS 134, Interim Financial Reporting (Annual Improvements 2012-2014 Cycle)

# MFRSs, Interpretations and amendments effective for annual periods beginning on or after 1 January 2017

- Amendments to MFRS 107, Statement of Cash Flows Disclosure Initiative
- Amendments to MFRS 112, Income Taxes Recognition of Deferred Tax Assets for Unrealised Losses

MFRSs, Interpretations and amendments effective for annual periods beginning on or after 1 January 2018

- MFRS 9, Financial Instruments (2014)
- MFRS 15, Revenue from Contracts with Customers

MFRSs, Interpretations and amendments effective for annual periods beginning on or after 1 January 2019

MFRS 16, Leases

## (a) Statement of compliance (continued)

MFRSs, Interpretations and amendments effective for a date yet to be confirmed

 Amendments to MFRS 10, Consolidated Financial Statements and MFRS 128, Investments in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The Group and the Bank plan to apply the abovementioned accounting standards, amendments and interpretations as follows:

- from the annual period beginning on 1 January 2016 for those accounting standards, amendments or interpretations that are effective for annual periods beginning on or after 1 January 2016, except for MFRS 14, Amendments to MFRS 5, 10, 11, 12, 127, 128, 134, and 141 which are not applicable to the Group and the Bank.
- from the annual period beginning on 1 January 2017 for those accounting standards, amendments or interpretations that are effective for annual periods beginning on or after 1 January 2017.
- from the annual period beginning on 1 January 2018 for those accounting standards, amendments or interpretations that are effective for annual periods beginning on or after 1 January 2018.
- from the annual period beginning on 1 January 2019 for those accounting standards, amendments or interpretations that are effective for annual periods beginning on or after 1 January 2019.

The initial application of the applicable accounting standards, amendments or interpretations are not expected to have any material financial impact to the current year and prior year financial statements of the Group and the Bank except as mentioned below:

#### (i) MFRS 9, Financial Instruments

MFRS 9 replaces the guidance in MFRS 139, Financial Instruments: Recognition and Measurement on the classification and measurement of financial assets and financial liabilities, and on hedge accounting.

The adoption of MFRS 9 may have an impact to the classification and measurement of financial assets and financial liabilities of the Group and the Bank.

# (a) Statement of compliance (continued)

#### (ii) MFRS 15, Revenue from Contracts with Customers

MFRS 15 replaces the guidance in MFRS 111, Construction Contracts, MFRS 118, Revenue, IC Interpretation 13, Customer Loyalty Programmes, IC Interpretation 15, Agreements for Construction of Real Estate, IC Interpretation 18, Transfers of Assets from Customers and IC Interpretation 131, Revenue - Barter Transactions Involving Advertising Services.

The adoption of MFRS 15 may have an impact to the current revenue recognition policy of the Group and the Bank.

The Group and the Bank are currently assessing the financial impact that may arise from the adoption of MFRS 9 and MFRS 15.

## (b) Basis of measurement

The financial statements of the Group and the Bank have been prepared on the historical cost basis, except as mentioned in the respective accounting policy notes.

The financial statements incorporate all activities relating to the Islamic Banking business which have been undertaken by the Group and the Bank. Islamic Banking business refers generally to the acceptance of deposits and granting of financing under the principles of Shariah.

# (c) Functional and presentation currency

The financial statements are presented in Ringgit Malaysia ("RM") which is also the functional currency of the Bank. All financial information is presented in RM and has been rounded to the nearest thousand (RM'000), unless otherwise stated.

# (d) Use of estimates and judgements

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

# (d) Use of estimates and judgements (continued)

Significant areas of estimation, uncertainty and critical judgements used in applying accounting policies that have significant effect on the amount recognised in the financial statements include fair value estimation for financial instruments as disclosed in Note 2(c)(vi).

# 2. Significant accounting policies

The accounting policies set out below have been applied consistently to the periods presented in these financial statements, and have been applied consistently by the Group entities, unless otherwise stated.

## (a) Basis of consolidation

#### (i) Subsidiaries

Subsidiaries are entities, including structured entities, controlled by the Bank. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

The Bank controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Potential voting rights are considered when assessing control only when such rights are substantive. The Bank also considers it has de facto power over an investee when, despite not having the majority of voting rights, it has the current ability to direct the activities of the investee that significantly affect the investee's return.

Investments in subsidiaries are measured in the Bank's statement of financial position at cost less any impairment losses, unless the investment is classified as held for sale or distribution. The cost of investment includes transaction costs.

# (a) Basis of consolidation (continued)

## (ii) Loss of control

Upon the loss of control of a subsidiary, the Bank derecognises the assets and liabilities of the former subsidiary, any non-controlling interests and the other components of equity related to the former subsidiary from the consolidated statement of financial position. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Bank retains any interest in the former subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

#### (iii) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

# (b) Cash and cash equivalents

Cash and cash equivalents comprise cash and balances with banks and other financial institutions, and short-term deposits maturing within one month.

Cash and cash equivalents are categorised and measured as loans and receivables in accordance with policy Note 2(c)(ii)(b).

## (c) Financial instruments

#### (i) Initial recognition and measurement

A financial asset or a financial liability is recognised in the statements of financial position when, and only when, the Group or the Bank becomes a party to the contractual provisions of the instrument.

A financial instrument is recognised initially, at its fair value plus, in the case of a financial instrument not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial instrument.

## (c) Financial instruments (continued)

#### (i) Initial recognition and measurement (continued)

An embedded derivative is recognised separately from the host contract and accounted for as a derivative if, and only if, it is not closely related to the economic characteristics and risks of the host contract and the host contract is not categorised at fair value through profit or loss. The host contract, in the event an embedded derivative is recognised separately, is accounted for in accordance with policy applicable to the nature of the host contract.

#### (ii) Financial instrument categories and subsequent measurement

The Group and the Bank categorise financial instruments as follows:

#### Financial assets

#### (a) Financial assets at fair value through profit or loss

Fair value through profit or loss category comprises financial assets that are held for trading, including derivatives or financial assets that are specifically designated into this category upon initial recognition.

Derivatives that are linked to and must be settled by delivery of unquoted equity instruments whose fair values cannot be reliably measured are measured at cost.

Financial assets categorised as fair value through profit or loss are subsequently measured at their fair values with the gain or loss recognised in profit or loss.

#### (b) Loans and receivables

Loans and receivables category comprises debt instruments that are not quoted in an active market.

Financial assets categorised as loans and receivables are subsequently measured at amortised cost using the effective interest method.

## (c) Financial instruments (continued)

# (ii) Financial instrument categories and subsequent measurement (continued)

#### (c) Financial investments available-for-sale

Available-for-sale financial assets are non-derivative financial assets, comprising investment in equity and debt securities instruments that are not categorised into any of the other categories above. Financial assets available-for-sale are usually held for an indefinite period of time, which may be sold in response to liquidity requirement or changes in market conditions.

Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at cost. Other financial assets categorised as available-for-sale are subsequently measured at their fair values with the gain or loss recognised in other comprehensive income, except for impairment losses, foreign exchange gains and losses arising from monetary items which are recognised in profit or loss. On derecognition, the cumulative gain or loss recognised in other comprehensive income is reclassified from equity into profit or loss. Interest calculated for a debt instrument using the effective interest method is recognised in profit or loss.

All financial assets, except for those measured at fair value through profit or loss, are subject to review for impairment (see Note 2(d)(i)).

#### Financial liabilities

All financial liabilities are subsequently measured at amortised cost other than those categorised as fair value through profit or loss.

Fair value through profit or loss category comprises financial liabilities that are held for trading, including derivatives or financial liabilities that are specifically designated into this category upon initial recognition.

Derivatives that are linked to and must be settled by delivery of unquoted equity instruments whose fair values cannot be reliably measured are measured at cost.

## (c) Financial instruments (continued)

# (ii) Financial instrument categories and subsequent measurement (continued)

#### Financial liabilities (continued)

Financial liabilities categorised as fair value through profit or loss are subsequently measured at their fair values with the gain or loss recognised in profit or loss.

#### (iii) Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Fair value arising from financial guarantee contracts are classified as deferred income and are amortised to profit or loss using straight-line method over the contractual period or, when there is no specified contractual period, recognised in profit or loss upon discharge of the guarantee. When settlement of a financial guarantee contract becomes probable, an estimate of the obligation is made. If the carrying value of the financial guarantee contract is lower than the obligation, the carrying value is adjusted to the obligation amount and accounted for as a provision.

#### (iv) Regular way purchase or sale of financial assets

A regular way purchase or sale is a purchase or sale of a financial asset under a contract whose terms require delivery of the asset within the time frame established generally by regulation or convention in the marketplace concerned.

A regular way purchase or sale of financial assets is recognised and derecognised, as applicable, using trade date accounting. Trade date accounting refers to:

- (a) the recognition of an asset to be received and the liability to pay for it on the trade date, and
- (b) derecognition of an asset that is sold, recognition of any gain or loss on disposal and the recognition of a receivable from the buyer for payment on the trade date.

## (c) Financial instruments (continued)

#### (v) Derecognition

A financial asset or part of it is derecognised when, and only when the contractual rights to the cash flows from the financial asset expire or the financial asset is transferred to another party without retaining control or substantially all risks and rewards of the asset. On derecognition of a financial asset, the difference between the carrying amount and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in equity is recognised in the profit or loss.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expires. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in the profit or loss.

#### (vi) Determination of fair value

Fair value of an asset or a liability, except for share-based payment is determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market or in the absence of a principal market, in the most advantageous market.

For non-financial asset, the fair value measurement takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

When measuring the fair value of an asset or a liability, the Group and the Bank uses observable market data as far as possible. Fair value are categorised into different levels in a fair value hierarchy based on the input used in the valuation technique as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group and the Bank can access at the measurement date.

## (c) Financial instruments (continued)

#### (vi) Determination of fair value (continued)

Level 2: inputs other than quoted prices included within Level 1

that are observable for the asset or liability, either

directly or indirectly.

Level 3: unobservable inputs for the asset or liability.

The Group and the Bank recognises transfers between levels of the fair value hierarchy as of the date of the event or change in circumstances that caused the transfers.

For financial instruments measured at fair value, where available, quoted and observable market prices in an active market or dealer price quotations are used to measure fair value. These include listed equity securities and broker quotes on Bloomberg and Reuters.

Where such quoted and observable market prices are not available, fair values are determined using appropriate valuation techniques, which include the use of mathematical models, such as discounted cash flow models and option pricing models, comparison to similar instruments for which market observable prices exist and other valuation techniques. Valuation techniques used incorporate assumptions regarding discount rates, interest/profit rate yield curves, estimates of future cash flows and other factors, as applicable. The Group and the Bank generally use widely recognised valuation techniques with market observable inputs, if available, for the determination of fair value.

If prices and parameter inputs or assumptions are not observable, the appropriateness of fair value is subject to additional procedures to assess its reasonableness. Such procedures include performing revaluations using independently generated models, assessing the valuations against appropriate proxy instruments, performing sensitivity analysis and extrapolation techniques, and considering other benchmarks. Assessment is made as to whether the valuation techniques yield fair value estimates that are reflective of the way the market operates by calibrating the results of the valuation models. These procedures require the application of management judgement.

Investments in unquoted equity instruments whose fair values cannot be reliably measured are measured at cost, and assessed for impairment at each reporting date.

#### (c) Financial instruments (continued)

#### (vii) Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount reported in the statements of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and to settle the liability simultaneously. This is not generally the case with master netting agreements and therefore, the related assets and liabilities are presented on a gross basis in the statements of financial position.

#### (d) Impairment

#### (i) Financial assets

All financial assets (except for financial assets categorised as fair value through profit or loss and investments in subsidiaries) are assessed at each reporting date whether there is any objective evidence of impairment as a result of one or more events having an impact on the estimated future cash flows of the asset. Losses expected as a result of future events, no matter how likely, are not recognised. For an equity instrument, a significant or prolonged decline in the fair value below its cost is an objective evidence of impairment. If any such objective evidence exists, then the impairment loss of the financial assets is estimated.

In respect of loans, advances and financing, the Group and the Bank first assess whether objective evidence of impairment exists individually for loans which are individually significant, or collectively for loans which are not individually significant. An individually assessed loan is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the loans (an incurred "loss event") and that loss event (or events) has an impact on the present value of estimated future cash flows of the loans that can be reliably estimated.

Objective evidence of impairment may include indications that a borrower or a group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, that it is possible that they will enter bankruptcy or other financial reorganisation and that there are observable data indicating a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with default.

#### (d) Impairment (continued)

#### (i) Financial assets (continued)

If there is objective evidence that an impairment loss has been incurred, the amount of loss is measured as the difference between the loan's carrying amount and the present value of the estimated future cash flows discounted at the loan's original effective interest rate. The carrying amount of the loan is reduced through the use of an allowance account and the amount of loss is recognised in the profit or loss. Where appropriate, the calculation of the present value of estimated future cash flows of a collateralised loan reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable.

Where a loan is not recoverable, it is written off against the related allowance for loan impairment. Such loans are written off after the necessary procedures have been completed and the amount of the loss has been determined. Subsequent recoveries of the amounts previously written off are recognised in the profit or loss.

Under the Guidelines on Classification and Impairment Provision for Loans/Financing issued by BNM where loans, advances and financing that is past due for more than 90 days/3 months shall be classified as impaired. The Bank applies this policy in addition to the above when determining if a loan is impaired.

An impairment loss in respect of financial investments available-for-sale is recognised in profit or loss and is measured as the difference between the asset's acquisition cost (net of any principal repayment and amortisation) and the asset's current fair value, less any impairment loss previously recognised. Where a decline in the fair value of a financial investment available-for-sale has been recognised in the other comprehensive income, the cumulative loss in other comprehensive income is reclassified from equity and recognised to profit or loss.

An impairment loss in respect of unquoted equity instrument that is carried at cost is recognised in profit or loss and is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset.

## (d) Impairment (continued)

#### (i) Financial assets (continued)

Impairment losses recognised in profit or loss for an investment in an equity instrument classified as available-for-sale is not reversed through profit or loss.

If, in a subsequent period, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed, to the extent that the asset's carrying amount does not exceed what the carrying amount would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in profit or loss.

#### (ii) Other assets

The carrying amounts of other assets (except for deferred tax assets) are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amounts of the other assets in the cash-generating unit (groups of cash-generating units) on a *pro rata* basis.

## (d) Impairment (continued)

#### (ii) Other assets (Continued)

Impairment losses recognised in prior periods are assessed at the end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognised. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

## (e) Resale and repurchase agreements

Securities purchased under resale agreements are securities which the Bank commits to resell at future dates and is reflected as an asset.

Obligations on securities sold under repurchase agreements are obligations which the Bank commits to repurchase at future dates and is reflected as a liability.

# (f) Plant and equipment

#### (i) Recognition and measurement

Items of plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any.

Cost includes expenditures that are directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the asset to working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. The cost of self-constructed assets also includes the cost of materials and direct labour.

When significant parts of an item of plant and equipment have different useful lives, they are accounted for as separate items (major components) of plant and equipment.

## (f) Plant and equipment (continued)

#### (i) Recognition and measurement (continued)

Gains and losses on disposal of an item of plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of plant and equipment and are recognised net within "other income" and "other expenses" respectively in profit or loss.

#### (ii) Subsequent costs

The cost of replacing part of an item of plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group or the Bank, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised to profit or loss. The costs of the day-to-day servicing of plant and equipment are recognised in profit or loss as incurred.

#### (iii) Depreciation

Depreciation is calculated on the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group or the Bank will obtain ownership by the end of the lease term. The estimated useful lives for the current and comparative periods are as follows:

Renovations	5	-	10	years
Office equipment	4		10	years
Computer equipment and software	3	-	5	years
Furniture and fittings	5	-	10	years
Motor vehicles	4	-	5	years

Depreciation methods, useful lives and residual values are reviewed, and adjusted as appropriate at end of the reporting period.

## (g) Income tax

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination or items recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted by the end of the reporting period, and any adjustment to tax payable in respect of previous financial years.

Deferred tax is recognised using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities in the statements of financial position and their tax bases.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting period.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at the end of each reporting period and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

# (h) Recognition of interest and financing income and expense

Interest and financing income and expense for all interest-bearing financial instruments are recognised in the statements of profit or loss and other comprehensive income using the effective interest rates of the financial assets or financial liabilities to which they relate.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability, or where appropriate, a shorter period, to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Group and the Bank estimate cash flows considering all contractual terms of the financial instrument but not future credit losses. The calculation includes all amounts paid or received by the Bank that are an integral part of the effective interest rate, including transaction costs and all other premiums or discounts.

## (i) Recognition of fees and other income

Loan arrangement fees and commissions are recognised as income when all conditions precedent are fulfilled.

Commitment fees and guarantee fees are recognised as income based on time apportionment over the contractual period.

Dividends from securities are recognised when the right to receive payment is established.

## (j) Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the Group and the Bank at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at reporting period are retranslated to the functional currency at the exchange rate at that date.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Foreign currency differences arising on retranslation are recognised in the profit or loss.

# (k) Employee benefits

#### (i) Short-term employee benefits

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees of the Group and the Bank. Short-term accumulating compensated absences such as paid annual leaves are recognised when services are rendered by employees that increase their entitlement to future compensated absences, and short-term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

#### (ii) Defined contribution plan

As required by law, companies in Malaysia make contributions to the state pension scheme, the Employees' Provident Fund ("EPF"). Such contributions are recognised as expense in the statements of profit or loss and other comprehensive income as incurred.

# (k) Employee benefits (continued)

#### (iii) Share-based compensation

The Group and the Bank participate in equity-settled and cash settled share based compensation plan for the employees that is offered by the ultimate holding company, Deutsche Bank Aktiengesellschaft, a bank incorporated in Germany. The fair value of the services received in exchange for the grant of the options is recognised as an expense in the profit of loss over the vesting periods of the grant.

The total amount to be expensed over the vesting period is determined by reference to the fair value of the options granted, excluding the impact of any non-market vesting conditions. Non-market vesting conditions are included in assumptions about the number of options that are expected to vest. At reach reporting date, the Group and the Bank revise its estimates of the number of options that are expected to vest. It recognise the impact of the revision of original estimates, if any, in the profit or loss.

## (I) Operating lease

Leases, where the Group and the Bank do not assume substantially all the risks and rewards of ownership are classified as operating leases and, except for property interest held under operating lease, the leased assets are not recognised on the statements of financial position.

Payments made under operating leases are recognised in the statements of profit or loss and other comprehensive income on a straight-line basis over the term of the lease. Lease incentives received are recognised in profit or loss as an integral part of the total lease expense, over the term of the lease.

# (m) Provisions

A provision is recognised if, as a result of a past event, the Group or the Bank has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

#### 16. Reserves

	Group and Bank	
	2015	2014
	RM'000	RM'000
Non-distributable:		
Share premium	357,763	357,763
Statutory reserve	174,722	174,722
Regulatory reserve	13,558	13,558
	188,280	188,280
Distributable:		•
Retained profits	988,748	876,399
	_1,534,791	1,422,442

The statutory reserve is maintained in compliance with Section 12 of the Financial Services Act, 2014 and is not distributable as cash dividends.

The regulatory reserve is maintained to comply with Bank Negara Malaysia's directive dated 4 February 2014 which required the Bank to maintain in aggregate, collective impairment provisions and regulatory reserves of not less than 1.2% of total outstanding loans/financing, net of individual impairment provision.

Subject to agreement by the Inland Revenue Board, the Bank has tax exempt income to frank approximately RM5,541,000 (2014: RM5,541,000) of its retained profits as at 31 December 2015 if paid out as dividend.

#### 22. Related parties

#### Identity of related parties

For the purposes of these financial statements, parties are considered to be related to the Bank if the Bank has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Bank and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

The Bank has a related party relationship with its holding company, other related companies, Directors and key management personnel.

#### Transactions with key management personnel

#### Key management personnel compensation

Key management personnel compensation is disclosed in Note 23.

Other significant related party transactions and balances of the Bank are as follows:

- as a proportion of capital base	35.40%	39.12%
- which is non-performing	0%	0%

# 22. Related parties (continued)

Credit transactions and exposures to connected parties as disclosed above includes the extension of credit facilities and/or off-balance sheet credit exposures such as guarantees, trade-related facilities and loan commitments. It also includes holdings of equities and private debt securities issued by the connected parties.

The credit transactions with connected parties above are all transacted on an arm's length basis and on terms and conditions no more favourable than those entered into with other counterparties with similar circumstances and credit worthiness. Due care has been taken to ensure that the credit worthiness of the connected party is not less than that normally required of other persons.

# 23. Key management personnel compensation

The key management personnel compensation are as follows:

	Group and Bank	
	2015	2014
	RM'000	RM'000
Executive Director - Salary and other remuneration - Bonuses - Benefits-in-kind Non-Executive Directors - Fees - Other remuneration	2,425 1,631 31 740 155	2,161 1,456 27 740 87
	4,982	4,471
Other key management personnel - Short-term employee benefits - Share-based payments	4,478 121 4,599	4,166 21 4,187
	T, J, J	7,107

Other key management personnel comprise persons other than the Directors of Group entities, having authority and responsibility for planning, directing and controlling the activities of the entity either directly or indirectly.

Details of the Directors' remuneration are disclosed in the Statement of Corporate Governance.

### 24. Taxation

	Group and Bank	
——————————————————————————————————————	.014	
	000'۸	
Current income tax		
	7,000

40,449 4	8,408	

# 25. Earnings per share

#### Basic earnings per share

The calculation of basic earnings per share for the year ended 31 December 2015 was based on the profit attributable to ordinary shareholders and a weighted average number of ordinary shares outstanding, calculated as follows:

	Group		
	2015 RM'000	2014 RM'000	
Profits attributable to ordinary shareholders	112,349	141,374	
Weighted average number of ordinary shares - Issued ordinary shares during the year	173,599	173,599	

# 25. Earnings per share (continued)

	Group	
	2015 (sen)	2014 (sen)
Basic earnings per share	64.7	81.4

#### 26. Dividends

Dividends recognised by the Bank:

	Group	
2014	Sen per share	Total amount RM'000
Interim 2013 ordinary	67.4	117,067

After the end of the reporting period, the Directors recommended a final dividend of 57.6 sen per ordinary share totalling RM100,000,000 in respect of the financial year ended 31 December 2015. This dividend will be recognised in subsequent financial year upon approval by the shareholders of the Bank.

# 27. Operating leases

#### Leases as lessee

Non-cancellable operating lease rentals are payable as follows:

	Group and Bank	
	2015	2014
	RM'000	RM'000
Less than one year	2,847	524
Between one and five years	3,258	210
	6,105	734

The Group and Bank leases office premise under operating lease. The lease typically runs for a period of 3 years, with an option to renew the lease after that date. None of the leases includes contingent rentals.

# 28. Capital adequacy

	Bank	
	2015	2014
Components of Tier 1 and Tier 2 capital are as follows:	RM'000	RM'000
Tier 1 capital		
Paid-up share capital	173,599	173,599
Share premium	357,763	357,763
Statutory reserve	174,722	174,722
Retained profits	988,748	876,399
Less: Deferred tax assets	(26,543)	(22,330)
Total common equity tier 1/Total tier 1 capital	1,668,289	1,560,153
Tier 2 capital		
Collective assessment allowance #	7,460	6,414
Regulatory reserve	13,558	13,558
Total capital base	1,689,307	1,580,125
Common equity tier 1/Tier 1 capital ratio	19.323%	16.155%
Total capital ratio	19.567%	16.361%

The capital adequacy ratios of the Group and of the Bank are computed in accordance with Bank Negara Malaysia's Capital Adequacy Framework (Capital Components and Basel II - Risk-weighted Assets). The Group and the Bank have adopted the Standardised Approach for Credit Risk and Market Risk, and the Basic Indicator Approach for Operational Risk. The minimum regulatory capital adequacy requirement is 8% for the risk-weighted capital ratio.

# Excludes collective assessment allowance on impaired loans restricted from Tier 2 capital of the Bank of RM1,808,000 (2014: RM2,393,000).

The breakdown of risk-weighted assets ("RWA") by each major risk category is as follows:

(C <sup>0</sup> ) 207509	RISK TYPE	Risk Weigh	ited Assets
		2015	2014
		RM'000	RM'000
1	Credit risk	4,367,429	4,504,483
2	Market risk	3,706,633	4,650,706
3	Operational risk	559,457	502,402
To	tal	8,633,519	9,657,591

# 29. Commitments and contingencies

The off-balance sheet exposures and their related counterparty credit risk of the Group and of the Bank are as follows:

#### 30. Capital management

The wide variety of the Group's businesses requires the Group to identify, measure, aggregate and allocate capital among the businesses appropriately. The Group manages capital through a framework of principles, organisational structures as well as measurement and monitoring processes that are closely aligned with the activities of group divisions. While the Group capital management continuously evolves and improves, there can be no assurance that all market developments, in particular those of extreme nature, can be fully anticipated at all times.

The Group manages capital in a coordinated manner at all relevant levels within the organisation. This also holds true for complex products which the Group typically manages within the framework established for trading exposures. The structure of capital function is closely aligned with the structure of group divisions.

The Group's and the Bank's regulatory capital are determined under Bank Negara Malaysia's revised Risk-weighted Capital Adequacy Framework and their capital ratios have complied with the minimum requirements set under this guideline. Information on the Group's and the Bank's capital adequacy ratios, regulatory minimum capital requirements and the components of capital base are disclosed in Note 28.

#### 31. Risk management

The Deutsche Bank Group has extensive risk management procedures and policies in place. The identification, monitoring and management of all risks within the Group are integrated into the Group-wide risk management processes in order to optimise the risk mitigating effects of diversification. Risk management procedures and policies are the responsibility of the Group Risk Committee and encompass all types of risk which includes market risk, credit risk, operational risk and liquidity risk. These risks areas are actively managed by dedicated divisions such as the Market Risk Management Division, Credit Risk Management Division, Liquidity Risk Control Division and Operational Risk Management Division. Treasury is responsible for overall liquidity management of the Bank including proposing liquidity risk limits in line with the tolerance/risk appetite applied by Liquidity Risk Control Division. The Board regularly reviews reports from the respective regional divisions and is made aware of the risk exposure of the Bank and its ongoing management at each board meeting.

#### Financial risk management

The Group and the Bank has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

#### Credit risk

Credit risk is the risk of any transactions giving rise to actual, contingent or potential claims against any counterparty, obligor or borrower, where the Group and the Bank bears the risk of loss if the counterparty, obligor or borrower defaults.

# Risk management objectives, policies and processes for managing the risk

Policies for managing credit risk are determined by the Group Risk Committee, which also delegates credit authorities to independent Risk Officers. Divisional credit portfolio guidelines and credit strategies for the major industries are the principal instruments to determine the Bank's risk appetite. Product or customer specific policies provide the framework for the measurement and management of credit risk. Approval of credit limits and management of exposure takes place within the framework of portfolio guidelines and credit strategies.

#### Exposure to credit risk, credit quality and collateral

Principal exposures to credit risk in this regard are represented by the carrying amounts of investment and dealing securities, and loans and advances portfolios in the statements of financial position. The credit exposure arising from off balance sheet activities has been disclosed in Note 29 to the financial statements.

#### (a) Credit quality of gross loans, advances and financing

	Group and Bank	
	2015	2014
	RM'000	RM'000
Impaired	2,982	3,537
Past due but not impaired	5,488	9,847
Neither past due nor impaired	1,333,579	1,327,391
	1,342,049	1,340,775

Financial risk management (continued)

Credit risk (continued)

#### (a) Credit quality of gross loans, advances and financing (continued)

#### (i) Impaired loans

Loans are classified as impaired when they fulfill either of the following criteria:

- (a) principal or interest or both are past due for 90 days/three (3) months or more;
- (b) where a loan is in arrears for less than three (3) months, the loan exhibits indications of significant credit weaknesses; or
- (c) where an impaired loan has been rescheduled or restructured, the loan continues to be classified as impaired until repayments based on the revised and/or restructured terms have been observed continuously for a period of six (6) months.

In addition, for all loans that are considered individually significant, the Group assesses on a case-by-case basis at each reporting date whether there is any objective evidence that a loan is impaired. The criteria that the Group uses to determine that there is objective evidence of impairment include:

- (a) any significant financial difficulty of the issuer or obligor;
- (b) a breach of contract, such as a default or delinquency in interest or principal payments;
- (c) high probability of bankruptcy or other financial reorganisation of the borrower:
- (d) the viability of the customer's business operations and its capability to trade successfully out of financial difficulties and to generate sufficient cash flow to service its debt obligations; and
- (e) any adverse news or developments affecting the local economic conditions or business environment of the borrower which will adversely affect the repayment capacity of the borrower.

#### (ii) Past due but not impaired

Past due but not impaired loans are loans where the customer has failed to make a principal or interest payment when contractually due, and includes loans which are due one or more days after the contractual due date but less than three (3) months or 90 days.

Financial risk management (continued)

Credit risk (continued)

#### (a) Credit quality of gross loans, advances and financing (continued)

#### (ii) Past due but not impaired (continued)

The past due but not impaired loans are analysed as follows:

	Group and Bank	
	2015	
	RM'000	RM'000
Past due but not impaired		
1 day to 30 days	2,604	3,572
31 days to <60 days	2,246	2,921
60 days to <90 days	3,096	3,354
Carrying amount	7,946	9,847

#### (iii) Neither past due nor impaired

As at reporting date, the Group and the Bank recorded loans, advances and financing that are neither past due nor impaired of RM1,333,579,000 (2014: RM1,327,391,000), of which RM1,101,801,000 (2014: RM1,100,931,000) and RM231,778,000 (2014: RM226,460,000) are loans and advances to customers and loans and advances to banks respectively.

No loan was renegotiated during the year (2014: Nil).

# (b) Fair value of collateral held against loans, advances and financing to customers and banks

The Group and the Bank hold collateral against loans, advances and financing to customers in the form of mortgage interests over property and guarantees. Fair value of housing loans collaterals are assessed on yearly basis based on independent valuation.

The fair value of property collateral held against outstanding loans, advances and financing to customers is as per below.

	2015 RM'000	2014 RM'000
Against individually impaired Against past due but not impaired Against neither past due nor impaired	6,497 22,739 20,830	5,939 24,529 19,999
	50,066	50,467

Financial risk management (continued)

Credit risk (continued)

#### (c) Credit quality of financial instruments

Set out below is the credit quality of assets analysed by external rating of the counterparties.

Group and Bank	Financial assets held- for-trading RM'000	Financial investments available- for-sale RM'000
2015		
Domestic Rating		
AAA+ to AA-	27,142	100
A+ to A-	505,372	-
P1 to P3	300,000	-
Unrated		1,491
	832,514	1,591
2014	- CANADA	
Domestic Rating		
AAA+ to AA-	131,596	100
A+ to A-	649,753	
P1 to P3	250,000	-
Unrated		1,491
	1,031,349	1,591

#### (d) Fair value of collateral held against derivative assets

The Group and the Bank hold collateral against derivative assets to banks and financial institutions counterparties in the form of cash of RM1,454,616,336 (2014: RM564,470,792) as at reporting date.

#### Market risk

Market risk arises from the uncertainty concerning changes in market prices and rates (including interest rates, foreign exchange rates and equity prices, commodity rates and other market risks), the correlations among them and their levels of volatility.

Financial risk management (continued)

Market risk (continued)

Risk management objectives, policies and processes for managing the risk

Deutsche Bank Global Group entities, including the Group and the Bank use a combination of risk sensitivities, Value at Risk ("VaR") and stress testing metrics to manage market risks and establish limits. Steered by the Group Risk Committee, the Market Risk Management team, which is part of the Group's independent risk management function, is responsible for managing the market risk of the Bank. Limits, set appropriate to the risk appetite in terms of VaR, are communicated to the appropriate personnel and current limit structure for each business division.

The majority of the interest rate and foreign exchange risks arising from non-trading assets and liability positions has been transferred through internal hedges to Global Markets within the Bank and is thus managed on the basis of value-at-risk, as reflected in the trading value-at-risk numbers. For the remaining risks that have not been transferred through those hedges, in general foreign exchange risk is mitigated through match funding the investment in the same currency.

A summary of the VaR position of the Bank's portfolios is as follows:

	At 31 December RM'000	Average RM'000	Maximum RM'000	Minimum RM'000
2015				
Interest Rate Risk:				
Market Risk	2,716	2,596	5,211	1,233
Specific Risk	958	492	1,024	196
Foreign Exchange Risk	2,237	3,305	9,415	638
Commodity Risk	-	108	441	-
Equity Risk	-	15	63	-
Total VaR	3,987	4,521	10,552	1,623
2014				
Interest Rate Risk:				
Market Risk	1,478	4,098	9,521	1,395
Specific Risk	232	354	806	45
Foreign Exchange Risk	3,806	3,801	9,504	472
Commodity Risk	210	120	438	-
Equity Risk	7	7	26	1
Total VaR	4,202	6,056	11,247	1,524

Financial risk management (continued)

Market risk (continued)

Value-at-risk model is subject to known limitations, including:

- (a) The use of historical data may not be a good indicator of potential future events, particularly those that are extreme in nature. The "backward-looking" limitation can cause value-at-risk to understate risk, but can also cause it to be overstated.
- (b) Assumptions concerning the distribution of changes in risk factors, and the correlation between the different risk factors, may not hold true, particularly during market events that are extreme in nature. While the Group believes the assumptions are reasonable, there is no standard value-at-risk methodology to follow. Different assumptions will produce different results.
- (c) The one day holding period does not fully capture the market risk arising during periods of illiquidity, when positions cannot be closed out or hedged within one day.
- (d) Value-at-risk does not indicate the potential loss beyond the 99th quantile.
- (e) Intra-day risk is not captured.
- (f) Although the Group considers the material risks to be covered by valueat-risk model and further enhances it, there still may be risks in the trading book that are not covered by the value-at-risk model.

#### Liquidity risk

Liquidity risk is the risk to a bank's earnings and capital arising from the inability to timely meet obligations when they come due without incurring unacceptable losses.

Risk management objectives, policies and processes for managing the risk

The objective of the Liquidity Management (LM) function is to ensure that the Deutsche Bank Malaysia Berhad ("the Bank") can fulfill its payment obligations at all times. All relevant and significant drivers of liquidity risk, on balance sheet as well as off-balance sheet, are taken into account. Prices of all asset and liability types reflect their liquidity risk characteristics and the Bank's cost of funding. Liquidity management is a governance function which does not report to any business division and which adheres to the Basel principles of sound liquidity risk management.

Financial risk management (continued)

Liquidity risk (continued)

Liquidity risk is managed through the Asset and Liability Committee ("ALCO"). This committee, chaired by Treasury, is responsible for both statutory and prudential liquidity management of the Bank including the approval of liquidity risk limits which are in line with the tolerance/risk appetite applied by Liquidity Risk Control (LRC). Decisions prepared by the ALCO for DBMB are submitted to the Board of Directors for notification.

Liquidity risk is monitored through the Bank Negara Malaysia New Liquidity Framework and the internal liquidity risk management policy. A prudent liquidity risk model is based on two main liquidity risk models such as stress testing and scenario analysis and funding matrix. The Bank's stress testing methodology adequately reflects the Bank's business-specific risks and complexity embedded in its business model. Stress testing is monitored on a daily basis, reported to the ALCO at its regular meetings.

Financial risk management (continued)

**Operational Risk** 

#### **Definition of Operating Risk**

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems, or from external events. It includes legal risk but excludes business and reputational risk.

#### Organisational Structure

While the day-to-day management of operational risk is the primary responsibility of our business divisions and infrastructure functions, the ORM function manages the cross divisional and cross regional operational risk as well as risk concentrations and promotes a consistent application of our operational risk management framework across the bank. Through our business partnership model, we aim to maintain close monitoring and high awareness of operational risks.

Strengthening controls through "Three Lines of Defense"

Deutsche Bank defines the three Lines of Defense as follows:

- The First Line of Defense includes all corporate divisions and selected infrastructure functions. First Line of Defense units are ultimately accountable of all risks and controls in their business processes.
- The Second Line of Defense encompasses all control functions such as Risk, Compliance, Legal, Human Resources, Finance and Tax. These are responsible for the design of Deutsche Bank's policy framework and independent risk assessment. Second Line of Defense units are independent from the First Line of Defense.
- The Third Line of Defense is Group Audit which is responsible for providing independent and objective assurance on the effectiveness of risk management, internal controls and governance processes.

Key themes for 2015 are the further build-out of the control organisation, the rollout of the enhanced risk and control assessment framework as well as continuing the work across all three Lines of Defense regarding specific control enhancements. This also includes the rollout of the enhanced three Lines of Defense model into the regions.

Financial risk management (continued)

Operational Risk

Measuring Our Operational Risks

For risk management purposes on a global group level, DB uses an Advanced Measurement Approach (AMA) framework across all divisions and legal entities to calculate the regulatory capital requirements for Operational Risk. Locally, DBMB uses the Basic Indicator Approach (BIA) to assess its local regulatory capital requirements for Operational Risk. The operational risk capital charge using BIA is equal to the average of a fixed percentage (15%) of positive annual gross income over the previous three years. Gross income figures are categorised into twelve quarters (equivalent to three years) and if the annual gross income for any given year is negative or zero, the figure shall not be included for the purposes of calculating the operational risk charge.

The Bank's total operational risk capital charge is the sum of operational risk charge for conventional banking operations and operational risk capital charge for Islamic banking operations.

#### 32. Financial assets and liabilities

#### 32.1 Categories of financial instruments

The table below provides an analysis of financial instruments categorised as follows:

- (a) Loans and receivables ("L&R");
- (b) Fair value through profit or loss ("FVTPL") Held for trading ("HFT");
- (c) Available-for-sale financial assets ("AFS"); and
- (d) Financial liabilities measured at amortised cost ("OL").

Group 2015	Carrying amount RM'000	L&R/ OL RM'000	FVTPL- HFT RM'000	AFS RM'000

The above disclosure is also applicable for the Bank level except that included in the deposits from customers is RM20,000 (2014: RM20,000) cash consolidated from the subsidiaries.

#### 32.2 Determination of fair value and the fair value hierarchy

MFRS 13 Fair Value Measurement requires each class of assets and liabilities measured at fair value in the statements of financial position after initial recognition to be categorised according to hierarchy that reflects the significance of inputs used in making the measurements, in particular, whether the inputs used are observable or unobservable as discussed in Note 2(c)(vi).

#### 32. Financial assets and liabilities

#### 32.2 Determination of fair value and the fair value hierarchy (continued)

#### 32.2.1 Financial instruments carried at fair value

The following table shows the Group's and the Bank's financial instruments which are measured at fair value at the reporting date analysed by the various level within the fair value hierarchy:

	Level 1 RM'000	Level 2 RM'000	Level 3 RM'000
2015			
Financial assets			
Securities purchased under resale agreements	-	530,140	-
Financial assets held-for-			
trading	-	832,514	-
Derivative assets		3,642,127	5,146
	-	5,004,781	5,146
Financial liabilities			
Derivative liabilities	-	(3,191,850)	(4,371)
2014			
Financial assets			
Securities purchased under			
resale agreements	<b></b>	143,222	-
Financial assets held-for- trading	-	1,031,349	-
Derivative assets	-	1,975,133	5,715
	#	3,149,704	5,715
Financial liabilities			
Derivative liabilities	-	(1,873,902)	(10,754)

The following shows a reconciliation from the beginning balances to the ending balances for fair value measurements in Level 3 of the fair value hierarchy:

	2015 RM'000	2014 RM'000
Financial assets		
Balance at 1 January	5,715	2,496
Total gain recognised in profit or loss:		
-Settlements	(5,715)	(2,496)
-Attributable to gain recognised relating		
to financial assets that have not		
been realised	5,146_	5,715
Balance at 31 December	5,146	5,715

# 32. Financial assets and liabilities (continued)

#### 32.2 Determination of fair value and the fair value hierarchy (continued)

#### 32.2.1 Financial instruments carried at fair value (continued)

	2015 RM'000	2014 RM'000
Financial liabilities		
Balance at 1 January	(10,754)	(5,732)
Total loss recognised in profit or loss:	` , ,	,
-Settlements	6,434	936
-Attributable to losses recognised		
relating to financial liabilities that		
have not been realised	(51)	(5,958)
Balance at 31 December	(4,371)	(10,754)

The unrealised gains/(losses) have been recognised net within non-interest income in profit or loss as shown in Note 19.

#### 32.2.2 Financial instruments not carried at fair value

In respect of cash and short term funds, other assets (excluding derivatives), statutory deposit with Bank Negara Malaysia, deposits and placements of banks and other financial institutions, and other liabilities (excluding derivatives), the carrying amounts in the statements of financial position approximate their fair values due to the relatively short term/on demand nature of these financial instruments.

The fair values of other financial assets/liabilities, together with the carrying amounts shown in the statements of financial position, are as follows:

	20	15	20	14
Group Financial assets Loans, advances	Carrying value RM'000	Fair value RM'000	Carrying value RM'000	Fair value RM'000
and financing	1,332,466	1,336,874	1,331,664	1,335,040
Financial liabilities Deposits from customers	4,817,557	4,838,377	4,548,576	4,564,684

#### 32.2 Determination of fair value and the fair value hierarchy (continued)

### 32.2.2 Financial instruments not carried at fair value (continued)

The disclosure is also applicable for the Bank level except that included in the deposits from customers is RM20,000 (2014: RM20,000) cash consolidated from the subsidiaries.

#### (a) Loans, advances and financing

The fair values of fixed rate loans with remaining maturity of less than one year and variable rate loans are estimated to approximate their carrying values. For fixed rate loans with maturities of more than one year, the fair values are estimated based on expected future cash flows of contractual instalment payments and discounted at prevailing rates at reporting date offered for similar loans. In respect of impaired loans, the fair values are deemed to approximate the carrying values, net of individual assessment allowance for impaired debts and financing.

### (b) Deposits from customers

The fair values for deposit liabilities payable on demand (demand and savings deposits) or with remaining maturities of less than one year are estimated to approximate their carrying values at reporting date. The fair values of fixed deposits with remaining maturities of more than one year are estimated based on discounted cash flows using rates currently offered for deposits of similar remaining maturities.

The fair value of loans, advances and financing and deposit from customers shown above are classified under Level 3 within the fair value hierarchy disclosure in accordance to MFRS 7.

#### 32.3 Derivative financial instruments

The following table shows the notional and market values of the derivatives financial instrument as at 31 December 2015 and 31 December 2014:

		Group and Bank	
2045	Notional RM'000	Positive market value RM'000	Negative market value RM'000
2015			
Foreign exchange related contracts

#### 32.4 Offsetting of financial assets and financial liabilities (continued)

Financial assets and financial liabilities are offset and the net amount is reported in the statements of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

Derivatives and reverse repurchase agreements included in the amount not set-off in the statements of financial position relate to transactions where:

- the counterparty has an offsetting exposure with the Group and the Bank and a master netting or similar arrangements is in place with a right to set-off only in the event of default, insolvency or bankruptcy; and
- (ii) cash and securities are received or cash pledged in respect of the transaction described above.

### 33. Equity compensation benefits

The Bank participates in the following share and options compensation plans operated by Deutsche Bank AG ("DB").

#### Share Plans

All awards represent a contingent right to receive Deutsche Bank common shares after a specified period of time. The award recipient is not entitled to receive dividends before the settlement of the award.

#### Deutsche Bank Share Scheme

Under the Deutsche Bank Share Scheme, selected employees are granted deferred share rights to receive DB shares at a specific future date. These may be granted as part of annual bonuses or as exceptional awards in the case of sign-ons, buy-outs or as retention incentives. The compensation expense is recognised on a straight line basis over the vesting period, which is generally three years for the annual awards.

### 33. Equity compensation benefits (continued)

#### DB Global Share Plan

The Group offers a broad-based employee share ownership plan entitled Global Share Purchase Plan ("GSPP"). The GSPP offers all active employees at participating Deutsche Bank entities the opportunity to purchase Deutsche Bank shares in monthly instalments over one year. At the end of the purchase cycle, the Bank matches the acquired stock in a ratio of one to one up to a maximum of ten free shares, provided that the employee remains at Deutsche Bank Group for another year. In total, over 19,000 staff from 28 countries enrolled in the seventh cycle that began in November 2015.

#### DB Equity Plan

The Group made grants of share-based compensation under the DB Equity Plan. This plan represents a contingent right to receive Deutsche Bank common shares after a specified period of time. The award recipient is not entitled to receive dividends during the vesting period of the award.

The share awards granted under the terms and conditions of DB Equity Plan may be forfeited fully or partly if the recipient voluntarily terminates employment before the end of the relevant vesting period. Vesting usually continues after termination of employment in cases such as redundancy or retirement.

In countries where legal or other restrictions hinder the delivery of shares, a cash plan variant of the DB Equity Plan was used for granting awards.

During the year, RM3,526,817 (2014: RM4,833,354) of expense was recognised in the profit or loss.

## 33. Equity compensation benefits (continued)

Movements in the number of deferred share rights held by employees are as follows:

	2015 Number of deferred	2014 Number of deferred
Group and Bank	share rights	share rights
Outstanding at 1 January Granted during the year	41,330 29,486	43,839 29,887
Vested to employees during the year Forfeited/Lapsed during the year	(32,604)	(32,396)
Outstanding at 31 December	38,212	41,330
	2015 €'000	2014 €'000
Grant value of share awards outstanding at 31 December	1,212	1,436
Grant value of share awards issued to the Scheme in the year	790	1,036
Grant value of share awards vested to employees in the year	1,015	1,179

BNM had given its approval on 22 August 2007 for the Bank to conduct Islamic Banking business under Section 124 of the Banking and Financial Institutions Act 1989 (Now repealed and replaced by Financial Services Act 2014).

#### Shariah Committee

The Shariah Committee was established under BNM's "Guidelines on the Governance of Shariah Committee for the Islamic Financial Institutions" (BNM/GPS1) to advise the Board of Directors on Shariah matters in its Islamic business operations and to provide technical assistance in ensuring the Islamic Banking products and services offered by the Bank and the relevant documentation are in compliance with Shariah principles.

During the financial year ended 31 December 2015, a total of 4 meetings were held. The Shariah Committee comprises the following members and the details of attendance of each member was as follows:

Members	Number of Shariah Meetings Attended
Dr Sheikh Hussain Hamed Sayed Hassan	4/4
Dr Muhammad Qaseem	4/4
En. Mohd Hilmi bin Ramli	4/4

#### Basis of measurement

The financial statements of the Islamic Banking business have been prepared on the basis consistent with that of the Group and of the Bank as disclosed in Notes 1 and 2 to the financial statements of the Group and of the Bank and have been prepared on the historical cost basis, except as mentioned in the respective accounting policy notes.

### (a) Cash and short-term funds

	2015 RM'000	2014 RM'000
